Your Name

✎ email@email.com | ✆ 111-111-1111 | ⊙ yourname | 🐦 @yourname

Highlights

Made a resume formatter

- Misused bash to concatenate files together
- Made a temp file the right way
- Mostly ignored error handling, except one statement
- But it only took me like 20 minutes so yay
- Unicodes and SVGs are in the header above (not all unicodes; you'll have to guess which)
- Now I'm going to inject some whitespace.

Work Experience

The Best Company, 2007-present

- Programmed some things, did other stuff
- Supervised some doodads we finagled
- Improved efficiency of language like 1000000%

Education

MSc Computer Science, 2007, There University, UK
